

AGRICULTURE PROJECTS

2014 Fall Semester Final

A WHAT?

- Every student will take part in creating an Agriscience project for their 1st semester final. This project is ongoing throughout the whole semester and portions will be checked periodically. Students will have allotted time in class to work on various parts of the project but much of the time invested needs to be done at home.

- Grab a timeline with the due dates →→

WHAT WILL THEY DO?

- Students will brainstorm, create and conduct an Agriscience experiment and develop and present a display board to explain their data and research.

WHAT ABOUT AFTER?

- After the semester, student projects scoring exceptional will move on to complete a various state level contests. Including contests at UC Davis, Chico State and Fresno State
